orfolk Citizens Have a Futile Battle With the Burglars-Fired Many Shots in Vain -Safe Blown Up-Burglars Secured Six Gold Watches and Twelve Dollars-Town Offers Five Hundred Dollars Reward.

Winsted, July 12 .- The town of Nor folk, ten miles west of here on the Philadelphia, Reading and New England railroad was the scene of a battle this morning between burglars and citizens. Winthrop Cone conducts a general

store 'n a building in which the Norfolk postoffice is also located. Cone's store and residence are connected by an electric burglar alarm.

Cone and Tobey exchanged shots with the two men on guard, and during the fusilade the safe in the store exploded. Cone, after firing his Winchester three times without effect, leveled his gun at one of the burglars at short range and pulled the trigger, but the gun refused to work. The reports of the shooting brought other citizens to the scene, who fired a total of fifteen shots, but

nobody was hurt.
After the two burglars in the store had secured the booty from the wrecked safe they joined their comrades on the outside and the four made good their The explosion of the safe demolished a portion of the store.

The four burglars were seen by Cone

n Norfolk yesterday. One had a scar on his face and was fairly well dressed. At 10 o'clock last night the quartet stood in front of Johnson's drug store watching Johnson putting away some silverware and jewelry.

All the towns in western Connecticut are excited over the outbreak of burglars, and Norfolk people who saw the burglars say their descriptions tally with those of the prisoners who escaped from Ludlow street jail, New York. More than twenty safes have been

A more thorough examination of the store showed that the thieves secured six gold watches and a chamois case which had been identified as one taken from his store was found on the tracks of the Philadelphia, Reading and New England railroad.

Chief of Police Wheeler of Winsted went to Grant's station and arrested the two men seen there, who were sus pected of being the burglars, but after examining them thoroughly it was decided they were not the men and they were released. Engineer Holcomb of the Philadelphia, Reading and New England railroad train, due here at 10:29, east bound, reported that he saw a man at Whiting River who answered the description of one of the men who committed the burglary. He wore white straw hat, and had a large scar on his face. The men are thus de-
